

Data Governance & Stewardship COP Tele-Gathering with Danette McGilvray

By Data Governance Institute

Dated: Jul 15, 2008

The Data Governance & Stewardship Community of Practice will offer a tele-gathering with noted Data Quality expert Danette McGilvray titled 'The 12 Dimensions of Data Quality.' Tuesday, July 22 from 11-12. AM EST.

The Data Governance & Stewardship Community of Practice will offer a tele-gathering with noted Data Quality expert Danette McGilvray titled 'The 12 Dimensions of Data Quality.' The one-hour web event will take place Tuesday, July 22 at 11 AM EST and will be open to both members and non-members. There will be no charge, but advance registration is required, and attendance will be limited to 150 people. To register, visit <http://www.DataStewardship.com>, navigate to the Event Calendar, and click on the entry for July 22nd.

This data governance event will focus on data quality aspects of governance efforts, and will feature Danette McGilvray discussing ways to measure data quality improvements utilizing data quality dimensions. Data quality dimensions are aspects or features of quality and provide a way to measure and manage the quality of data and information. Each dimension requires different techniques, tools, and processes to measure, understanding the effort required to assess or manage each of these dimensions can enable you to better scope your projects by choosing the one that fits your needs.

The event will be a listen-only format, with accompanying slides posted for download ahead of the gathering. For specific questions, email them to susan.gonzalez@datagovernance.com prior to the event, they will be addressed if time permits.

About Danette McGilvray

Danette McGilvray is President and Principal of Granite Falls Consulting Inc. Danette is very much in demand as a speaker at conferences throughout the United States and Europe, has been profiled in PC Week and HP Measure Magazine and was an invited delegate to the People's Republic of China to discuss roles and opportunities for women in the computer field. She is the author of the upcoming Morgan Kaufmann book: 'Executing Data Quality Projects: Ten Steps to Quality Data and Trusted Information™.'

About The Data Governance & Stewardship Community of Practice

The Data Governance & Stewardship Community of Practice (DGS) is the membership arm of the Data Governance Institute, LLC (DGI). DGS is a vendor-neutral organization, and membership is open to anyone who has an interest in Data Governance & Stewardship. DGS offers members access to largest collection of data governance artifacts on the web, including case studies, frameworks, charters, templates, charts and other guidance. DGS also provides networking opportunities and a venue for the exchange of ideas and information. For more information, visit <http://www.DataStewardship.com>
